Professional Summary

Motivated Environmental Science student at Old Dominion University with a strong academic foundation in ecology, oceanography, meteorology, and quantitative analysis. Demonstrated leadership through founding and managing university athletic organizations, and proven reliability through extensive volunteer service and community engagement. Brings excellent problem-solving skills, adaptability, and a commitment to environmental stewardship. Seeking to contribute through hands-on fieldwork, data collection, and environmental monitoring.

Research Experience

Undergraduate Research Experience in Oceanography — ODU (with Dr. Margaret Mulholland)

- Participated in multiple oceanographic research cruises, assisting with transect sampling and station-based data collection.
- Conducted water sampling, environmental measurements, and basic data recording during field operations.
- Formed a Hypothesis and made a project about the Effects of Tidal Flooding of Dissolved Inorganic Nutrients in the Lafayette River, Norfolk Virginia.

Education

Camden County Early College High School | Graduate 2024 | **High School Diploma**

College of the Albemarle | Graduate 2024 | **Associate of Science**

Old Dominion University | Graduate Candidate Dec 2026 | Bachelor of Science in Environmental Science

Relevant Coursework:
Research Experience in Oceanography, Oceanography, Ecology, Intro to Meteorology, University Physics I, Calculus for Life Sciences, Data Analysis & Statistics, Research Skills & Information Literacy for the Natural Sciences

Leadership & Volunteer Work

President & Founder — ODU Cross Country/Running Club (2024–Present)

- Established and managed a university-recognized athletic organization.
